NEWS FROM THE SUBURBS.

CAMPAIGN OF THE SALVATION ARMY. THE MARCH ALONG THE NEW JERSEY COAST-THE HEADQUARTERS AT KEYPORT.

The Salvation Army has succeeded in arcusing much interest in its work at Keypert, N. J. Meetings are held every night in Walling's Opera House, and on Sundays three times, at the armory which can accommodate 2,000 people. Every meeting is crowded. Sixty converts are reported after five weeks' work. It is the intention of the control of \$22,000. Every meeting is crowded. Sixty converts are reported after five weeks' work. It is the intention of the Army to erect barracks at a cost of \$2,000 and make Keyport the headquarters, establishing outposts at Matawan, Red Bank, Long Branch and Asbury Park. The managers of the opera house at Long Branch refused to let the Army have the building, but Washington Hall has been rented, and work will be begun at once. Twenty-five of the converts have announced their intention of joining the regular army, and have been uniformed. A delegation went to Kahway last Sunday and met with a warm reception, being chased through the streets by a crowd of roughs. The work is in charge of Captain Lanner. Afraitless attempt was made to bold meetings at Matawan.

I Lond expressions of opposition to the Salvation Army, which began a campaign last uight, are heard on every side. One cause for the bitterness is the fact that the army was routed at Long Branch without firing a gup, the owners of the halls having refused to allow the army in their buildings. The detachment which has besieged the wickedness of Asbury Park is commanded by a pleasant featured man who rejoices in the name of "Kansas Jack." He has advertised two street parades for to-day. President Buchanan of the Board of Commissioners says that he will prevent any street demonstrations on Sunday, and the "blood stained warriors" will probably be arrested if they start on the march to-day. The notices sent to the newspapers by "Kansas Jack." are filled with army and fanatical terms.

TEMPERANCE PROGRESS IN MONTCLAIR.

A warm interest in the temperance work at Montclair, N. J., still continues. It has mostly been centred, however, in the work of the Reform Club. The membership has steadily increased, and the guarantee subscription fund for the club building is pow so large that success is assured. The furnishing of the headquarters at the old Morris mansion has been progressing. Those in charge of the work have received many gifts of furniture, carpets, rugs, pictures and other household necessaries. Beside the cheap restaurant and coffee-house in the basement, and the club-rooms on the floor above, it is intended to devote one room to the Woman's Christian Temperance Union. There will be four alceping apartments in the third story for lodgers. The opening of the house is set for to-increw evening when there will be a formal celebration. The managers have arranged for a torchilght procession, which is to include the members of the club, the Catholic Guild, and the Temperance Cadets. On the arrival of the procession at the club-rooms, a house-warning is to be held, at which the supper is provided by the Woman's Christian Femperance Union. Temperance meetings have been held at intervals throughout the week. The regular Gospel Temperance meeting occurs this afternoon.

ADRUNKEN MAN TRIES TO KILL HIS WIFE.

The residents of Ravenwood, Long Island City, were startled at an early hour yesterday by screams of "Help! Morder! Police!" Several men hurried to the house of Michael Reilly, who on March 17 assaulted his sister-in-law, Mrs. Anna Lynch, of Greenpoint. The cries were those of his wife, whom he was trying to murder. When the men arrived at the house they found Mrs. Reilly in front of the stair-door which was ajar. She was trying to shut it, and her husband was endeavoring to open it. He had returned home about 2 o'clock in a beastly state of intoxication, and at once began to abuse his wife, who was in bed with her two-year-old child. He beat and kicked her, and finally went to the kitchen to get a kinfe to kill her. He could not find the knives, which she had hid, but got a pair of scissors. His wife had crept noiselessly to the stair door, when he caught her by the hair and tried to pull her back.

Finding if impossible to get her back Reilly cut her hair. After being loosened the woman was too faint to run, and held on to the door until assistance arrived. When Reilly saw the men he barricaded the door and through an upper story window swore at them. Mrs. Keilly applied to Justice Kavanagh later in the day and procured a warrant for the arrest of her husband. At a late hour last night he had not been arrested.

ABSENT SCHOLARS MUST CARRY EXCUSES. ADRUNKEN MAN TRIES TO KILL HIS WIFE.

ABSENT SCHOLARS MUST CARRY EXCUSES. Three children of C. W. Hanks, of New Brighton. Staten Island, remained home from school on Evacuation Day without furnishing an excuse. The teacher punished them by keeping them in during recess for a week. Mr. Hanks told the teacher that he considered such action unjust and he apealed from the teacher's action to the principal, and thus the case was carried to the trustees. Theodore Freau, county school commissioner, said that he thought it would be wrong to give the children power to slight the teacher. Mr. Hanks then argued the case before W. B. Ruggles, State Superintendent of Public Instruction, who gave as his decision: ABSENT SCHOLARS MUST CARRY EXCUSES.

I regard the rule as a fair and just requirment, and a simple recognition of the duty of a parent to endeavor to emport the authority of the teacher would obviate any difficulty.

FAVORING THE CABLE SYSTEM.

A mass meeting in the interest of rapid transit will be held in the Cooper Union on Tuesday evening, April S, and the routes laid out by the Rapid Transit Commission will be supported. The advocates of tases routes say that the General Surface Railway bill now in the Legislature has been so amended through the efforts of a combination of the horse railway lines as practically to deliver all the streets and avenues of New-York and Brooklyn over to these lines. The people interested in the cable railway system argue that its great advantage will be that by a plan of free transfers passengers will be able to ride from any point in the city re ched by the system to any other point for a single fare of five cents, while by any proposed system of horse-car lines three or four fares would be required between certain points. FAVORING THE CABLE SYSTEM.
